Spreading Ripples Wartburg Bible Series

As an accompaniment to the various formats of the EHV Bible, we have created a collection of supplementary materials called the *Wartburg Bible Series*. Over the next few months we will highlight a number of these works in our newsletter. Much (but not all) of the material in these books and booklets can be downloaded for free from our website, wartburgproject.com, if you are willing to take the time to hunt down the original FAQs and articles. The Wartburg Bible Series assembles the material into handy collections in various formats. It also fulfills the legal requirement that we make commercial use of the trademark Wartburg Bible Series.

This month's featured item from the series is a new book, *Fascinating Facts, Puzzling Problems, and Matters of Taste: Controversies about the Bible*. This book can be used as a companion to any translation of the Bible, but it was written as a result of the translation work done for *The Holy Bible: The Evangelical Heritage Version (EHV)*. Because of its unique role as God's book for all people the Bible generates more interest and controversy than any other book. This creates a whole set of problems for translators of the Bible. Another problem is that the last two centuries have greatly widened the gap between our culture and the culture and daily lives of the inhabitants of the Bible. This creates the plausibility of our title: *Fascinating Facts, Puzzling Problems, and Matters of Taste: Controversies About the Bible*. For more information about this book see the attachment "Fantastic Facts and Its Table of Contents".

THIS MONTH'S PICTURES

This month we will take a break from our usual presentation of pictures from the EHV Study Bible to present pictures of Egypt and Sinai, which illustrate this month's article on that topic. See more maps in the article about the [Red Sea and Mount Sinai](#).
