THE 500TH ANNIVERSARY OF THE WARTBURG PROJECT

The year 2021 marks the 500th anniversary of the Wartburg Project, that is, it is the 500th anniversary of the first Wartburg Project, Luther's initial translation of the New Testament, which he completed during his exile to the Wartburg Castle from May 1521 to March 1522. Since our Wartburg Project is named in honor of Luther's pioneering work and it is built on his principles, the October Reformation issue of our newsletter is devoted to articles about Luther's Wartburg Project and its enduring influence.

Article 1: Luther at the Wartburg. This brief article about Luther's work at the Wartburg provides a summary of his stay there and directs readers to further resources.

Article 2: Luther and the EHV. This 15-page booklet updates an article about the relationship between Luther's work begun at the Wartburg and the work of today's Wartburg Project. This article was first published in 2017 for the 500th anniversary of the Reformation.

Article 3: Rick Steves' Luther and the Reformation. This YouTube video which focuses on the political and social effects of the Reformation is not an adequate presentation of the goals and purposes of the Reformation, but it presents a good visual tour of the Reformation.
